2021 Announcement of the International Conference on Infectious Diseases and Primary Healthcare

Ian Martins*

World's famous Scientist, Doctor of Science, Edith Cowan University, Australia

Mark the calendar! **The International Conference on Infectious Diseases and Primary Healthcare** is going to be held during **February 1-2, 2021** at **Barcelona, Spain**. The **Primary Healthcare 2021** conference will be organized over the theme ***The Whole Society Approach to Healthcare***. The topics of the Conference are diverse, which is ranging from primary healthcare, to research on primary healthcare, and its implementation in the field of healthcare.

This International Conference on [Infectious Diseases](#) and Primary Healthcare is an excellent opportunity to fetch your research effort to the global attention and earn some academic fame. Primary Healthcare 2021 is proud to recognize the deserving with awards which elevates their career and encourages in achieving more. By Judgeding on the excellence of research, creativity and effectiveness of particulars, the awards will be distributed by the Organizing Committee Members.

[Primary Healthcare 2021](#) is a grand two days event which includes symposia, workshops, papers, posters, Keynotes and plenary speeches. The abstract submission process is available for the potential researchers and practitioners who are interested to present at the conference. The Papers reporting on verified research should represent either a finished work or work in progress with some results can be reported. Presentations that need demonstrations are also welcome.

[Barcelona Primary Healthcare conference](#) will be an extraordinary experience for all the attendees and also it provides the remarkable opportunity for networking among researchers and health practitioners in the field of Primary Healthcare. Since this conference also covers very global aspects on infectious diseases from very basic issue to practical application of awareness of these diseases, anyone interested in future progress of healthcare and infectious disease should not miss.

And also, this international meeting assembles the eminent personalities across the world in the expanding fields related to the identification, research and development of solutions for the infectious diseases with primary healthcare. As we all are aware of the growing crisis associated with infection and microbe resistance, hence it is timely and this meeting will enable you to take up and discuss critical issues associated in

this field.

The objective of the conference is:

- To promote the concept of healthcare and related infectious diseases worldwide.
- To share and exchange the knowledge and experience on the current advancements and developments in the field of Healthcare and Infectious Diseases technology.
- To evaluate the present health and healthcare situation worldwide in order to increase the efficacy in patient safety treatment.
- To define the principal of healthcare as well as the related infectious diseases and overcoming practical problem in the development the healthcare technology.
- To formulate and define the roles of governments, national and international organization in technical cooperation and support for the development of healthcare system.

Despite the significant advances and developments in Primary Healthcare and Infectious Diseases, the knowledge to practice gap still exists, where half of the people with chronic [Infectious diseases](#) such as HIV and tuberculosis remains untreated due to limited availability and increasing antimicrobial resistance. While some of the rare infectious diseases like Q fever and Whipple's disease remain undiagnosed for a longer period of time which is a life threatening aspect. The International experts in [Primary Healthcare medicine](#) would be sharing their current research and clinical practices at this Conference.

We hope sharing of your clinical practice with these global experts will make this conference more successful.

A brochure can be downloaded from the website as a reminder to encourage you to begin thinking about submitting your abstracts. Feel free to distribute the flyer to your interested colleagues. We hope to see you at Barcelona during February 2021!
